

### Confirmation of cooperation/Reference

**Baruti GmbH** is a Swiss founded company operating in Kosovo. As a fast growing company that provides marketable services abroad, we stand as one of the leading outsourcing partners of telephone services in the Balkan countries. Our main markets, where we provide our services are German-speaking-countries.

We put the training of our Administrational staff in the hands of our well trusted partners from the **AUK Training and Development Center**.

During a six week period in January-February 2016 our staff consisting 14 employees from the Human Resource Department, Operational Staff, IT-Support and Marketing and Sales, participated in the training on "**Basics of Project Management**".

At all times during those weeks, we had fully support from the trainer and the benefits we gained from the AUK Trainers experience and expertise are of high value for every not only for us but for every enterprise that ceases to increase its own knowledge on Project Management.

Our entire staff was certified at the end of the training unit and we are very satisfied with the course provided by AUK Training and Development Center.

We fully recommend the AUK Training and Development Center and we are looking forward to future Partnerships.

Best Regards,

Drenusha Shala  
Chief Executive Officer
