Christopher G. L. Hall, D.Phil.
President of American University of Kosovo
Germia Campus - Nazim Gafurri 21
10,000 Pristina, Republic of Kosovo

Dear Dr. Hall:

On July 1, 2010, Visar Jasiqi presented a training seminar on the “Benefits of Technology in the Law Practice” to several Kosovo lawyers and to members of the staff of the Kosovo Chamber of Advocates (KCA) through the AUK Training and Development Institute (TDI). Thanks to Mr. Jasiqi’s professionalism, comprehensive knowledge and remarkable presentation skills, the presentation was sophisticated, well-organized and engaging and was very well received by the participants.

The topic chosen, hence the involvement of TDI, has its origins in a statutory requirement mandating continuing legal education for all Kosovo lawyers beginning September 2010. One of the requisite topic areas is law practice management. Few Kosovo lawyers use computer technology in their practices, including e-mail and Internet research. It is a deficit that must be remedied in order for Kosovo lawyers to compete successfully in future.

Because of TDI’s unique expertise and talents and the existence of branch offices throughout Kosovo, it is the ideal partner for KCA in its efforts to increase the ability of lawyers to make use of technology for communication, research and law practice administration.

I wish to thank AUK and Mr. Jasiqi for his presentation on July 1. ABA ROLI and the KCA look forward to working with TDI in the future on this important project.

Best regards,

Tim Hazen
Legal Specialist
